CAREER PROFILE _____

- Graduating student (high distinction) with Bachelor of Science in Information and Technology
- Coding Electives: Software Engineering, Data Structures and Algorithms, Computer Science
- Two years commercial experience in Software Development (.NET, C#, SQL, HTML, css)
- Leadership applied through managing a marketing team to execute digital marketing including designs, branding and advertisements through Vietnamese Students Association
- Excellent communication skills through successfully organising and closely coordinating with leading industry speakers an international Developers' Conference with over 400 guests

EDUCATION _____

Bachelor of Science in Information Technology   **Feb 2019 - May 2024**
University of Technology Sydney (UTS)   **(expected)**

- Business Information Systems Management Major, Interaction Design Submajor
- Coding Electives: Software Engineering, Data Structures and Algorithms, Computer Science
- GPA 6.4/7 (High Distinction Average)

EMPLOYMENT / WORK EXPERIENCE _____

JUNIOR PROJECTS PROGRAMMER   **Dec 2022 - current**
thankQ IT Solutions

- Coded bug fixes for frontend/backend technologies in SQL, C#, and HTML
- Executed AGILE development methodologies to swiftly deliver new features, changes and adhoc bug fixes, meeting or exceeding project deadlines
- Solved complex problems that utilise multiple systems (security, authentication, APIs) and leveraging my curious nature to learn multiple coding languages simultaneously

Key Achievements

- Independently developed a robust C# tool with Visual Studio automating failed API calls from SQL databases, reducing manual intervention and resolution times by over 200%
- Utilised Protractor and Angular to fully automate testing for new web modules, drastically transforming a full day of testing for integration issues into minutes

Risks and Challenges

- Eliciting unclear development specifications and possible mitigating scope creep
- Dependency risks in using third party applications and external libraries in softwares

QA PROGRAMMER (INTERNSHIP)   **Mar 2022 - Dec 2022**
thankQ IT Solutions

- Created test cases and conducted quality assurance testing with new developments
- Facilitated concise communication in teams, regarding bug reports and proposed fixes
- Performed routine maintenance and updates on SQL scripts to uphold data integrity

Key Achievements

- Navigating and managing four code bases in distinct programming languages, showcasing adaptability with a rapid learning curve all with a positive attitude
- Proactively learning independently and assigning self tasks with little supervision

Risks and Challenges

- Reducing technical debt through consistent coding practices through code reviews

TECHNICAL SKILLS _____

Languages   SQL, python, C#, C++, .NET, Java, HTML, JavaScript
Technologies   Visual Studio, Github, Microsoft Office, Adobe Suite,
                       Tools (Jira, Jenkins, Postman), Plastic SCM (Unity Version Control)

ADDITIONAL EXPERIENCE _____

GRAPHIC DESIGN AND DIGITAL PRINTS   **Nov 2019 - current**
Self Employed
- Crafted impactful brand identities: lead and curated creation of logos and cohesive visual assets that captured clients' brand visions to elevate brand recognition
- Facilitated collaboration and acted as a liaison between clients and printing stores, ensuring clear communication throughout design and production process
- Transformed spaces with engaging visual experiences with physical store banners and drop signs, enhancing the atmosphere and brand presence in cafe environments

CLIENT SUPPORT ASSOCIATE   **Mar 2021 - June 2021**
Top Class Fruit Supply
- Engaging in direct face-to-face communications with over 20 different clients, fostering strong relationships and addressing their needs effectively
- Documenting and carefully auditing orders from supplying clients, utilising both digital systems and paper-based processes to ensure accuracy and efficiency

VOLUNTEERING _____

Sydney Yun Yee Tong Lion Dancing   **Sep 2023 - current**
- Dedicated participant in lion dancing, showcasing Vietnamese culture through traditional performances at various community events holding over hundreds of participants
- Demonstrated commitment to community and excellence by refining weekly routines

NDC Sydney (Norwegian's Developer Conference)   **Feb 2024**
- Collaborated in a dynamic team environment as a dedicated volunteer cohesively with event organisers to ensure the seamless operation of the event with over 400 attendees
- Managed professional interactions and provided logistical support with renowned guest speakers, maintaining a positive and welcoming atmosphere over the three day event

Vietnamese Students' Association (Society) Fundraiser   **Oct 2023**
- Achieved impactful branding and promotion through successfully crafted digital marketing materials that enhanced the association's brand visibility and community engagement
- Lead the creation of visually compelling posters and advertisements to effectively promote association events and fundraiser initiatives to target audiences

Gym Fitness Coach   **May 2021 - May 2023**
- Tailored training programs to clients' needs: customised workout routines and diet plans based on personal goals, days training, training preferences and fitness levels.
- Monitored progress and performance consistently, with weekly tracking to monitor clients' strength gains, skill development, progression and mental barriers

Unity Project Community Programming   **Nov 2021 - Mar 2022**
- Orchestrated collaboration with multi-talented team of four members for code changes
- Conceptualised engaging gameplay vision through designing and prototyping designs and experiences- designed engaging artwork and storyboards that laid the foundation
